

## **VATC Awarded GSA Schedule Contract**

**Tampa, FL—June 8, 2009**—Due to its superior quality of products and services and its highly competitive pricing, Visual Awareness Technologies and Consulting, Inc. (VATC) is a recent recipient of a General Services Administration (GSA) Federal Supply Schedule Contract (Contract No. GS-35F-0485V) and is now listed on the GSA IT Schedule 70.

The Federal Supply Schedule Contract is a long-term government-wide contract that allows international, federal, state and local government agencies to purchase professional services solutions at special and approved volume discount pricing directly from suppliers listed on the schedule. With VATC's award of the schedule contract, all customers, even those in remote locations, can now order VATC products and services conveniently through the GSA website ([www.gsa.gov](http://www.gsa.gov)).

“This GSA contract award will facilitate and streamline the ordering process for all government procurement officers,” says VATC Senior Vice President, Jeff Brake. “Being a GSA Schedule contract holder gives us a unique advantage over the competition in reaching out to the federal government community.” Because VATC is committed to expanding and strengthening its government channel, it recognizes this segment of the market as a key factor for achieving long-term future growth.

In addition, VATC's inclusion on the GSA Schedule will provide possible other benefits such as shorter lead-times and lower administrative costs associated with finding customers and selling products and services.

To obtain an award like this, a company must first satisfy the criteria set forth by GSA. Receiving a GSA Schedule contract award is the culmination of an extensive evaluation process conducted by the GSA and demonstrates a company's capabilities, performance history and customer satisfaction.

“This is a very prestigious award,” says VATC President Sara Moola, “Being listed on the GSA Schedule, we feel the possibilities for VATC's growth are endless.”

### **About Visual Awareness Technologies and Consulting, Inc:**

Visual Awareness Technologies and Consulting, Inc. (VATC) is a leading provider of professional and management consulting services, joint training solutions, information technology and engineering to federal agencies, primarily within the Department of Defense. VATC has 20 locations worldwide that provide daily interface on technical, programmatic and operations issues. Our foundation of experience is grounded in over 1500 years of combined military, government and commercial operations, specifically in joint training environments and critical information technology infrastructure implementation.
